

External Adapters

Kaga Electronics/Volgen KTPS Series of External Adapters

Kaga's KTPS line of wall adapters and desktop power supplies comply with the latest Level V efficiency standards. Units are available in both fixed, multiple blades and desktop power adapters. Blades for UK, EU and Australia are included. All carry the applicable international safeties. They are available with output voltages ranging from 3.3VDC to 48VDC. All have universal input circuitry, over voltage/current protection and optional output connectors.

Features

Level V CEC

Universal Input

Over voltage/over current protection

Multiple blade configurations

Various Output connectors available
