Antenna Solutions for After Market Installations

Laird helps you meet and exceed the wireless connectivity challenges in the service solutions environment.

Laird In Your Industry

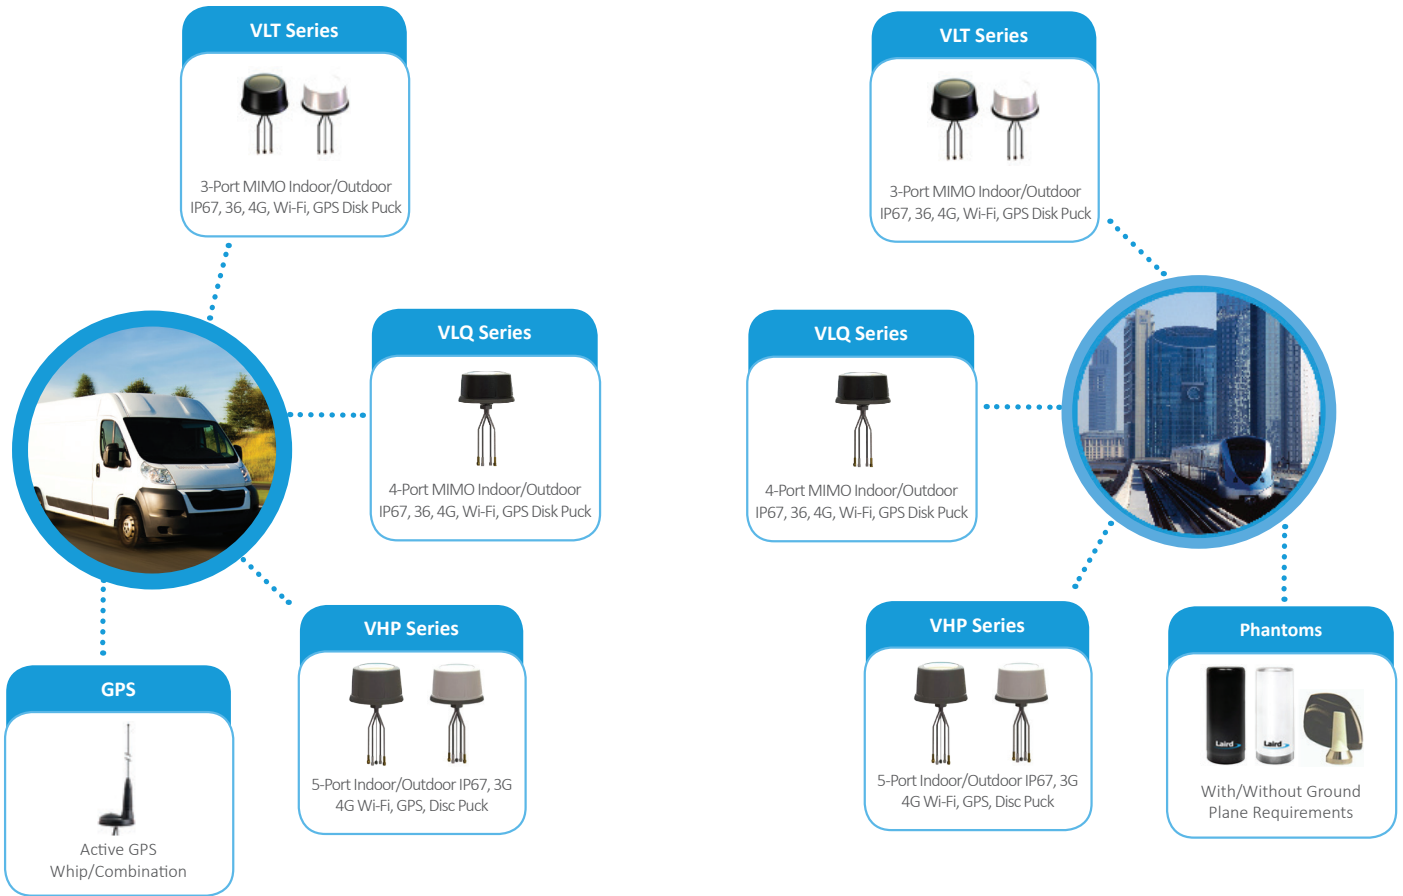

Nowadays the transportation industry relies on the very latest communication technologies to keep everyone safe and seamlessly connected everywhere. Access to real-time data and always-on communication while on the road is critical. At Laird we know that incorporating wireless connectivity to transportation services is key for the customer experience. To accomplish this, fleet installers provide the service solutions required to incorporate wireless connectivity to different type of transportation segments based on customers’ needs.
