F-51851GNFQJ-LY-ADN	F-55471GNFQJ-LW-ACN

Description of Change:

Due to NJRC, the IC manufacture discontinued the driver IC that was used on above products, Optrex decided to discontinue those products.

The “Suggested alternative parts” are the most similar products we have. However, there are differences, such as:

- The module thickness (mounting location and X-Y dimensions are same)
- Pin assignment
- Operation voltage, etc.

Please check the specification for details. (available on www.optrex.com)

At this time, we have enough ICs on hand that we feel will support current demand for one year, but this can change depending on future sales volume. Please review your requirements and place LTB orders accordingly. Once IC stock is depleted, we have no choice other than to use the alternative versions.

Schedule

- Last Time Buy: Sept. 30th, 2010 or until IC stock depleted whichever comes first

Should you have any questions, please contact your Optrex sales representative.

Sincerely,

Optrex America, Inc.
