

TRAINS & RAIL SYSTEMS

Advanced Sensing Technologies

Engine Management

- Thermal switch
- Pressure sensor
- Pressure switch
- Speed sensor
- Temperature probe

On-board Facilities

- Pressure sensor
- Air quality
- Pushbutton switch

Lift Systems

- Limit switch
- Toggle switch
- Key switch

Doors and Panels

- Limit switch
- Magnetic sensor

Brake systems

- Limit switch
- Pressure sensor
- Pressure switch

Tracks and Points

- Limit switch
- Magnetic sensor

	Non-contact position sensing	Temperature sensing	Pushbutton switches	Rotary position	Pressure switches	Toggles and rockers	Speed sensors	Thermal switches	Basic switches	Pressure sensors	IMU	Limit switches	Air quality monitors	Key switches	Magnetic ICs	Scan Engines

TRAIN RELIABILITY AND SAFETY

Application		Growth Factor	Primary Products	Secondary Products
Doors and panels		Increasing use of inter-connected systems to ensure safety and security	Limit switches	Magnetic ICs
Engine management		Implementation of means to monitor and control engine operation and performance	- Pressure sensors - Speed sensors	- Temperature probes - Temperature switches
Braking systems		Preventative maintenance routines to monitor effectiveness to reduce downtime	- Limit switches - Pressure sensors - Pressure switches	Thermistor

PASSENGER ASSISTANCE

Application		Growth Factor	Primary Products	Secondary Products
Onboard facilities		Sensing systems to control and regulate enclosed water supply and air quality	Pressure sensors	- Pressure switches - Air quality monitors
Platform lifts		Adjustable platforms and steps for train access and wheelchair lifts	- Limit switches - Basic switches	- Magnetic ICs - Toggle switches

INFRASTRUCTURE AND EXTENDED ENVIRONMENT

Application		Growth Factor	Primary Products	Secondary Products
Barrier controls		Reliable performance with consistent repeat operation for platform and traffic control	- Limit switches - Enclosed basic switches	Scan engines
Track switching		Low energy, reliable position sensing for exposed environments	Limit switches	- Magnetic ICs - Position sensors
Maintenance vehicles		Specialist vehicles with a range of features and devices to be controlled	- Toggle switches - Limit switches	- Speed sensors - Key switches

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgment or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose.** In no event shall Honeywell be liable for consequential, special, or indirect damages. While Honeywell may provide application assistance personally, through our literature and the Honeywell web site, it is buyer's sole responsibility to determine the suitability of the product in the application. Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this writing. However, Honeywell assumes no responsibility for its use.
