

December 13, 2013

Product Change Notification Number: 131312

Title: NMB recently announced the Introduction of Fan Motor New Numbering System

Reason for Change: To standardize the definition and numbering system on AC Axial, DC Axial and Blower Fan Motors

Change Description: NMB recently announced the Introduction of Fan Motor New Numbering System for models. This includes all parts, packages, ordering codes and derivatives applicable to the following Root Part Numbers in attached files: AC fan motors, DC Fan motors and DC blower fan motors. This is only part numbering system change. There is NO change in form, fit or function of the fans and blowers. Products are produced by the same manufacturers and process technology, package, test equipment and test programs. The effective date of this transaction is as soon as possible.

Proposed First Ship Date*: April 05, 2014

*The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. NMB will continue to ship product with old Part Numbers until a time in which inventory has been depleted.
